Evaluation Results

- **reason**: The agent successfully completed the task of right-clicking a row in the table and selecting 'Insert Rows Above'. The initial screenshot shows a table with the first row labeled 'Gear'. The agent's action of right-clicking on this row is confirmed by the appearance of the context menu in the subsequent screenshot. The agent then correctly clicked on the 'Insert' option, followed by 'Insert Rows Above', as evidenced by the expanded menu and the final screenshot showing an additional row above the 'Gear' row. The final screenshot confirms that a new row has been inserted above the original first row, indicating the task was completed successfully.
- **sub_scores**: {'right-click on the correct row': 'yes', 'open context menu': 'yes', "select 'Insert' option": 'yes', "select 'Insert Rows Above'": 'yes', 'new row inserted correctly': 'yes'}
- **complete**: yes
- **level**: session
- **request**: Follow the steps
- **id**: 0

Step 1:

- **Thought**: To right-click a row in the table, I need to identify the row I want to right-click on. Since the sub-task is to right-click a row, I will choose the first row for this action. The first row is labeled 'Gear'.
- **ControlLabel**: 71
- **ControlText**:
- **Status**: CONTINUE
- **Subtask**: Right-click a row
- **Action**: [{'Function': 'click_input', 'Args': {'button': 'right', 'double': False}, 'ControlLabel': '71', 'ControlText': '', 'Status': 'CONTINUE', 'Results': {'status': 'success', 'error': '', 'traceback': '', 'return_value': None}}]
- **Request**: Right-click a row
- **error**: {}
