Galaxy Trajectory Report

Log Directory: `logs\galaxy\task_1`

Executive Summary

- **User Request**: Retrieve all warning and error logs from Linux servers, add them to the 'report' sheet of the log_detailed Excel file, and send an email with the report to the operations engineer.
- **Total Steps**: 5
- **Total Time**: 66.80s

Step-by-Step Execution

Step 1

- **Agent**: constellation_agent (ConstellationAgent)
- **Status**: CONTINUE
- **Round**: 0 | **Round Step**: 0
- **Execution Time**: 22.42s
- **Time Breakdown**:
  - LLM_INTERACTION: 22.12s
  - ACTION_EXECUTION: 0.30s

Actions Performed

Function: `build_constellation`

▶ Arguments (click to expand)

Constellation Evolution

▶ Constellation AFTER (click to expand)
▶ Connected Devices

Step 2

- **Agent**: constellation_agent (ConstellationAgent)
- **Status**: CONTINUE
- **Round**: 0 | **Round Step**: 1
- **Execution Time**: 13.86s
- **Time Breakdown**:
  - LLM_INTERACTION: 13.70s
  - ACTION_EXECUTION: 0.15s

Actions Performed

Step 3

- **Agent**: constellation_agent (ConstellationAgent)
- **Status**: CONTINUE
- **Round**: 0 | **Round Step**: 2
- **Execution Time**: 10.21s
- **Time Breakdown**:
  - LLM_INTERACTION: 10.06s
  - ACTION_EXECUTION: 0.15s

Actions Performed

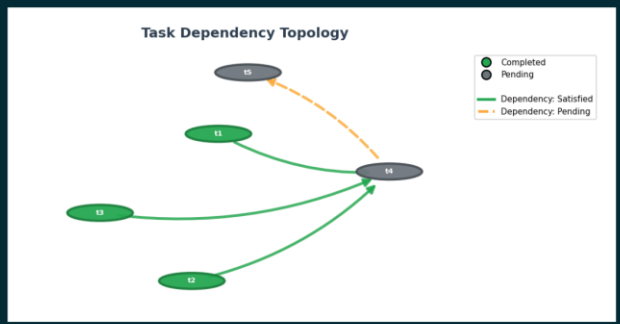
Function: `update_task`

▶ Arguments (click to expand)

Constellation Evolution

▶ Constellation BEFORE (click to expand)
▼ Constellation AFTER (click to expand)
Constellation ID: constellation_2753954b_20251021_180630 **State**: executing

Dependency Graph (Topology)



Task Summary Table

Task ID	Name	Status	Device	Duration
t1	Retrieve logs from linux_agent_1	completed	linux_agent_1	43.46s
t2	Retrieve logs from linux_agent_2	completed	linux_agent_2	37.69s
t3	Retrieve logs from linux_agent_3	completed	linux_agent_3	50.85s
t4	Update Excel report with collected logs	pending	windows_agent	N/A
