Low Budget

Question
In what year did the event occur that led to the loss of lives [Other constraints]...

ReAct [Wrong answer]

This requires a multi-pronged search. I will look for famous monuments in each city and then check their details...
At this point, I **have exhausted the direct search** for a monument that fits all criteria.

ReAct + Budget Tracker [Correct answer]

This is too many queries. I will try to be more **efficient**. [performs search]
I have a low query budget, so this must be precise.
